#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-6, 13 and 16-17 and 22-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams (US 6,276,623).

In regards to claims 1, 13, 22 and 23, Williams discloses a payout tube for a storage container, the payout tube 33 comprising a elongated conduit with a flexible portion placed in an interior of the container and a remaining portion 32 on the exterior of the container.

In regards to claims 4, 5, 16 and 17, Williams discloses the flexible tube can bend in the range of 1 to 120 degrees, and 5 to 90 degrees.

With respect to claims 24-33, the method described in these claims would inherently result from the use of the flexible payout duct of Williams as advanced above.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 4-13, 16-17 and 19-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Williams in view of Redford (US 5,031,982).

In regards to claims 1, 9, 11, 13, 20, 22 and 23, Williams discloses a payout tube for a storage container, the payout tube 33 comprising an elongated conduit with a flexible portion placed in an interior of the container and a remaining portion 32 on the exterior of the container.

Redford discloses the flexible portion is made up of slots and corrugations. The slots are circular around the tube.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the flexible tube of Williams to include slots and corrugations as suggested by Redford, to make the tube more resilient.

In regards to claims 4, 5, 16 and 17, Williams as modified by Redford teaches the flexible tube can bend in the range of 1 to 120 degrees, and 5 to 90 degrees.

With respect to claims 24-33, the method described in these claims would inherently result from the use of the flexible payout duct of Williams as modified by Redford as advanced above.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1, 4-13, 16-17 and 19-33 have been considered but are not persuasive. Redford clearly teaches a plurality of independent and discrete slots and helically winding spring wire forming a flexible duct produces independent and discrete slots as claimed.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan H. Langdon whose telephone number is (571)272-6948. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathy Matecki can be reached on (571) 272-6951. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
